ELECTION OF TOWNSHIP Assessors—LETTER FROM THE COUNTY AUDITOR.—There seems to have been some misunderstanding, of late, in regard to the Township Assessors, whether it were necessary to elect one for each election precinct, and one for each entire township, A day or two ago, Mr. Girard, Clerk of Anderson Township, at the request of the Trustees, addressed a letter to the County Auditor in regard to the matter, which was referred to the County Solicitor.

The Drivers Strike on the Street Railways.—The drivers of the City Passenger Railway, as we supposed, refused yesterday to accept the terms proposed by the Superintendent of the road. They requested an interview with Mr. Robbins, and represented to him the condition in which they had been placed, stating that it was impossible for them to do the labor demanded of them. They are all poor, and have families entirely dependant upon their earnings, and were willing to accept any reasonable remuneration for the duty they performed, and proposed to accept the reduction of their per diem wages, providing they were permitted to use scats.

The consequence was, that the Conductors were obliged to attend to the duties of the drivers in connection with their own, and were thus forced to take the entire charge of the cars.

Considerable excitement was created at the Considerable excitement was created at the Brighton House by the forcible ejection of some persons from the cars who had accepted the terms offered by the Directors, and a posse of the police force of the city was detailed for the purpose of preserving the peace. What the result will be we can not tell, but

LECTURES REFORE THE LIBRARY ASSOCIATION—REV. EDWIN H. CHAPIN ON "SOCIAL FORCES."—REV. Edwin H. MODE OF MERTING NEWSCHER CATTICINA,—
We are informed that, an evening or two

The journalist asserted very quietly his right to express his opinion of public performers, and stated that he should continue to do so when it lay within his duty, the actor threatening, if mentioned again in any way in the paper on which the critic was employed, to entirely eat up the Lilliputian quill-driver, and, after the manner of the desprace Romeo, to strew some churchyard with mis hungry bones.

p rate Romeo, to strew some churchyard with ma hungry bones.

Now this mode of resisting or setting aside criticism strikes us as highly commendable and vastly amusing. We really like it—it is so novel and original withal.

The idea, too, of his being outraged at the expression that he is a bad actor. He is, we believe, the first person who ever denied it, and as, we can not suppose he is prejudiced in his own case, we give him the full benefit of his opinion.

We have before had occasion to say Mr. Carter was a bad actor, and we will say again.

We have perfer his occasion, to say all.

he is a very bad actor—one of the worst we
have ever seen in this city in his position,

If Mr. Carter undertakes to enter into hos-tile collision with all the people who don't like his acting, and say as much, he will have more business on his hands than he can well dispose of for the next ten years; and we hope, therefore, as he has expressed his determina-tion to perform such auxilisis feats more the therefore, as he has expressed his determina-tion to perform such pugilistic feats upon the heads of all persons of correct taste, that he will favor the press first, and give its mem-bers an early call. Be sure, Mr. Carter, they will appreciate the favor. If they must be sacrificed to your Achillean wrath, let them fall early. The press of this city has done a great many bad things, no doubt; but let it never be accused of liking Mr. Carter's act-ing. Oh, no! that lowest deep has not yet been reached. een reached.

RUMORED ABSCONDING, EMBEZZLEMENT AND RUMORED AISCONDING, EMBEZZLEMENT AND SEDUCTION.—A rumor was current in the city yesterday, and particularly in Fourth-street, to the effect that the agent of a well-known public company had absconded, after embezzling about \$20,000 of the funds of his employers, and inducing a young girl of some position, by his flatteries and promises, to wander with him from the path of chastity. The story was so prevalent that we were more than half inclined to give it credence; but, for the present, refrain from publishing the names of the parties for reasons that are patent.

The statement of Bank averages is quite as favorable as was anticipated. The Loans show but a moderate expansion, while the Specie strength is largely increased. The Specie reserve is now higher than at any time since July, 1559.

The following is a statement of the condition of the Banks of the city of New York:

The same number of the Tribmae observes concerning Money and Exchange in New York:

This has master has endeavored in every manner to break him of it. Just before the adjournment of the Legislature, Nath got upon what is termed a "big bast," and the General was deprived of his services for a considerable time, when they were very much needed. He waited for the boy to get perfectly sober, and assuming a very stern and detarmined expression of countenance, and with great severity of tone, he told him he could tolerate his outrageous conduct no longer.

"Here," continued the General, giving him a folded document, "here are your free papers—henceforth you are your own master. Get out of my room at once. I will make provision to-day to send you to the North."

The boy was taken all aback. The big tears commenced rolling down his sable cheeks. He said he did not want to be free, he didn't want to be free even and stay at home. He promised faithfully to get drunk no more if his master would take him back, and we believe he has kept his word. this story:
